ICPP 2013 Program

[Day 1] FRIDAY, January 25, 2013

09:00-09:55 Registration
09:55-10:00 Welcome
10:00-11:00 [Invited] Sonorant obstruents revisited
   Keren Rice (University of Toronto)
11:00-11:20 BREAK
11:20-11:50 VOT Changes in obsolescing languages: Evidence from Kurmanji
   Mahjoub Zirak (Hiroshima University)
   Peter M. Skaer (Hiroshima University)
11:50-12:20 Vowel devoicing in infant-directed Japanese
   Andrew Martin (RIKEN)
   Akira Utsugi (RIKEN)
   Reiko Mazuka (RIKEN)
12:20-13:30 LUNCH
13:30-14:00 The rhythmic effects of rendaku and hiatal elision in Western Old Japanese poetry
   John Kupchik (Kyoto University / JSPS)
14:00-15:00 [Invited] A rule-application approach to rendaku
   Takanori Hirano (Formerly at Yamaguchi University)
15:00-16:15 Poster Session I with coffee (Geminates, Accent and Rendaku)
16:15-16:45 When long is tense and tense is long: An EPG study of Japanese and Korean stops
   Alexei Kochetov (University of Toronto)
   Yoonjung Kang (University of Toronto)
16:45-17:45 [Invited] The interplay among various durational units in Japanese stop quantity distinction
   Yukari Hirata (Colgate University)
[Day 2] SATURDAY, January 26, 2013

09:30-10:30  [Invited] Articulatory kinematics in long and short consonants
Anders Löfqvist (Haskins Laboratories)

10:30-10:50  BREAK

10:50-11:20  The representation of weight and length of geminates in Japanese: Evidence from a ludling savant with Williams syndrome
Fusa Katada (Waseda University)

11:20-11:50  Processing consonant length in Bengali: ERP and behavioural evidence
Sandra Kotzor (University of Oxford)

11:50-12:20  On characterizing Sanskrit gemination
Yasuko Suzuki (Kansai Gaidai University)

12:20-13:30  LUNCH

13:30-14:00  Analogical change in progress: accent shift in Yanbian Korean
Chiyuki Ito (Tokyo University of Foreign Studies)

14:00-14:30  Tone features, segmental features and tonogenesis
Jan-Olof Svantesson (Lund University)

14:30-15:00  A speech perception loss but an acoustic gain: A cross-age study of tone and non-tone language listeners’ perception of lexical tones
Liu Liquan (Utrecht Institute of Linguistics OTS)
René Kager (Utrecht Institute of Linguistics OTS)

15:00-16:15  Poster Session II with coffee (Accent / tone)

16:15-16:45  Seeking adequacy in describing the tonal system of Du’an Zhuang: Using phonetic evidence for tonal descriptions
Jeremy Perkins (Rutgers University)
Seunghun J. Lee (Central Connecticut State University, ZAS)

16:45-17:45  [Invited] On the context dependent/independent tonal neutralization in Chinese dialects
Ray Iwata (Kanazawa University)

17:45-18:00  BREAK

18:00-  Banquet
[Day 3] SUNDAY, January 27, 2013

09:30-10:30  [Invited] Towards a typology of postlexical tonal neutralizations  
Larry Hyman (UC Berkeley)

10:30-10:50  BREAK

10:50-11:20  Accent neutralizations in the Tarama variety of Miyako Ryukyuan  
Hayato Aoi (Tokyo University of Foreign Studies, JSPS)

11:20-11:50  Tone neutralization and tone merger in the Ikema dialect of Miyako Ryukyuan  
Yosuke Igarashi (Hiroshima University)  
Yukinori Takubo (Kyoto University)  
Thomas Pellard (CNRS)

11:50-12:20  Tonal neutralization in Kagoshima Japanese  
Haruo Kubozono (NINJAL)

12:20-13:30  LUNCH

13:30-14:00  Perception of accent contrasts in vowel devoicing in Japanese  
Manami Hirayama (Ritsumeikan University)  
Mikio Giriko (NINJAL)

14:00-14:30  The source of reinforcement of pitch fall in kakoo-shiki in the Shiramine dialect of Japanese  
Kenji Yoshida (Waseda University)  
Tetsuo Nitta (Kanazawa University)

14:30-15:00  Word and phrase prosody in each other’s domains  
Tomas Riad (Stockholm University)  
Sara Myberg (Stockholm University)

15:00-15:15  BREAK

15:15-16:15  [Invited] Prosodic typology of Japanese accent  
Junko Itô (UC Santa Cruz)  
Armin Mester (UC Santa Cruz)

16:15-  Farewell
[ Poster Session I ] FRIDAY, January 25, 2013

Mafuyu Kitahara (Waseda University)
Kiyoko Yoneyama (Daito Bunka University)

Alexander Ratte (The Ohio State University)

Sin-Ichiro Sano (ICU)
Shigeto Kawahara (Rutgers University)

Setyo Prasiyanto Cahyono (Dian Nuswantoro University)
Raden Arief Nugroho (Dian Nuswantoro University)

[5] Shortening of initial-geminates and long vowels in Shuri Okinawan poetry
Kunio Kinjo (Sophia University)

[6] Consonant gemination in loanwords as preservation of syllable weight
Yasushi Otaki (Tokyo University of Foreign Studies)

Toshio Matsuura (Hokusei Gakuen University)

[8] The production and perception of syntactic geminates in Spanish
Daniel Scarpace (University of Illinois, Urbana-Champaign)
Jose Hualde (University of Illinois, Urbana-Champaign)

[9] The morphologically regressively assimilated consonants
Hiroki Koga (Saga University)

Tatsuyuki Mimura (Muroran Institute of Technology)

Jason Ginsburg (University of Aizu)
Emiko Kaneko (University of Aizu)
Naomi Ogasawara (University of Aizu)
Ian Wilson (University of Aizu)

[12] **Tone-vowel interaction in Matsue Japanese: The role of foot structure and licensing**
Clemens Poppe (University of Tokyo)

[13] **Vowel Reduction in Kermanian accent**
Maryam Abdolalizade (Shahid Bahonar University of Kerman)
Vahideh Abolhasanizadeh (Shahid Bahonar University of Kerman)
[ Poster Session II ] SATURDAY, January 26, 2013

Yoko Mori (Doshisha University)

[2] Identification of English primary stress by Japanese listeners and bias toward word-final stress: Due to F0 patterns or an influence from Japanese loanword accent?  
Mariko Sugahara (Doshisha University)

[3] Correlation between word order and intonation in two verb-initial Formosan languages  
Anastasia Karlsson (Lund University)  
Arthur Holmer (Lund University)

[4] Stress in Japanese loanwords in English: Faithfulness or adaptation?  
Fournier Pierre (University of Paris 13)  
Vanhoutte Sophie (University of Tours)

Gakuji Kumagai (Tokyo Metropolitan University)

[6] On tone and syntax in two Tibetan varieties  
Joseph Perry (University of Cambridge)

[7] The future development of the neutral tone in Taiwan Mandarin: another neutralization?  
Karen Huang (University of Hawaii)

[8] Prosody perception by Japanese learners of English  
Pinter Gabor (Kobe University)  
Shinobu Mizuguchi (Kobe University)  
Satoshi Yamato (Kobe University)

[9] Tone neutralization in Mandarin T3 sandhi: A perceptual account  
Ao Chen (Utrecht University)  
René Kager (Utrecht Institute of Linguistics OTS)

[10] Bilateral perception of Spanish and Japanese word accent by L2 learners  
Jose Joaquin Atria (University College London)  
Valerie Hazan (University College London)

Donna M. Erickson (Showa Music University)  
Caroline Menezes (University of Toledo)
Tonal neutralizations in Northern Wu Chinese
Masahiko Masuda (Kyushu University)

Analytical pattern recognition of intonation contours: Automated tonal labeling and class feature extraction using linguistic fuzzy quantifiers
Nicholas Bacuez (The University of Texas at Austin)

The base in Korean noun paradigms: Evidence from tone
Youngah Do (MIT)
Michael Kenstowicz (MIT)

Real surface-oriented correspondence: Evidence from neutral tones in two Mandarin dialects
Feng-fan Hsieh (National Tsing Hua University)
Yueh-chin Chang (National Tsing Hua University)
